

OUTPUT (AGENTIC AI):- Health Symptom checker Agent

The screenshot shows the IBM Watsonx Agent Lab interface. The top bar includes the IBM Watsonx logo, a "Set as default" button, and user information (S B Poorvi's Account, London). The main navigation bar shows "Projects / Health_symptom_checker_Agent / Agent Lab". The "Build" tab is active, displaying the "Model: llama-3-3-70b-instruct". The "Agent preview" panel on the right shows a conversation log. The user's input is: "I am having a body pain, cold, watery eyes and sizzling nose and a heavy head ache whether it can be cured using the home remedy if yes please suggest". The agent's response is: "Based on the search results, it appears that the symptoms you are experiencing, such as body pain, cold, watery eyes, sizzling nose, and headache, could be related to a variety of conditions, including a cold, flu, or sinus infection. Some possible home remedies that may help alleviate these symptoms include: Resting and staying hydrated, Using a humidifier to add moisture to the air, Applying a warm compress to the face and nose, Using saline nasal sprays or drops to help loosen mucus, Taking over-the-counter pain relievers such as acetaminophen or ibuprofen".

The "Agent preview" panel on the right shows a conversation log. The user's input is: "I am having heavy fever from past 3 days and a body pain what to do should i consult a doctor". The agent's response is: "Based on the search results, it seems that you are experiencing symptoms of a viral fever, which can be treated with home remedies. Some of the suggested remedies include: Resting and staying hydrated, Taking a tepid bath to help lower your body temperature, Using over-the-counter pain relievers such as acetaminophen or ibuprofen to help reduce fever and relieve muscle aches, Drinking clear broths and soups to help keep your body hydrated, Trying natural remedies such as ginger, garlic, and lemon juice to help relieve fever symptoms. However, if your symptoms persist or worsen, it's always best to consult with a healthcare professional for proper diagnosis and treatment. They can help determine the underlying cause of your symptoms and recommend the best course of treatment."

Knowledge

Agent preview

- Taking a tepid bath to help lower your body temperature
- Using over-the-counter pain relievers such as acetaminophen or ibuprofen to help reduce fever and relieve muscle aches
- Drinking clear broths and soups to help keep your body hydrated
- Trying natural remedies such as ginger, garlic, and lemon juice to help relieve fever symptoms

However, if your symptoms persist or worsen, it's always best to consult with a healthcare professional for proper diagnosis and treatment. They can help determine the underlying cause of your symptoms and recommend the best course of treatment.

In your case, since you have been experiencing heavy fever and body pain for the past 3 days, it's recommended that you consult with a doctor to rule out any underlying conditions that may require medical attention. They can help determine the cause of your symptoms and provide guidance on the best treatment options.

You: 10:05 AM

ok please get me an appointment on sunday

Health_symptom_checker_Agent 10:05 AM

Based on the search results, it appears that there are several options for finding a doctor and scheduling an appointment on Sunday. Here are a few options:

- Zocdoc: This website allows you to search for doctors in your area and book appointments online. You can filter your search by location, specialty, and availability, including Sunday appointments.
- OhioHealth: This website allows you to find a doctor and schedule an appointment online. You can search by doctor name, specialty, or condition, and some doctors offer online scheduling.
- Cleveland Clinic: This website allows you to request an appointment online or by phone. You can also find an emergency department or walk-in location near you.
- NHS: This website provides information on how to make an appointment with a GP surgery, including online booking and phone appointments.
- HealthPartners & Park Nicollet: This website allows you to make
